

Welcome!

My name is Janice Slaby. I look forward to meeting you and continuing your child's educational journey. I recently joined the team at First Friends Child Development Center last year in the 3 year old Angels class. I am a certified group teacher for preschool.

I graduated college with a Liberal Arts degree focusing on Early Childhood Education and Social Work. I moved directly into teaching in a classroom setting for three year olds. I bring my experience and love of children to my role here at the center, I look forward to teaching the three year old children because they are inquisitive and loving. Each new day will be full of fun & learning!

When I am away from the center, and not working on lesson plans, I can be found spending time with my husband and two sons Logan and Madden.

I look forward to welcoming you and your family to First Friends!
